<http://uphys.msu.edu/unit/sanitarian/index.html>

Questions related to Dubai

- How are same sets of services going to be delivered to employees who are MSU employees?
- How are we set up for handling health emergencies?
- How do we handle the regular screening programs required of some workers and students?
- Given Dubai rules about exportable diseases, is there a plan for screening at entry?
- How are data held that are consistent with privacy requirements?
- How do you access appropriate health care professional for advice on programmatic health issues?
